

Insulin-Transferrin-Selenium (ITS)

Cell Culture Reagents-Growth Supplements

产品编号: SC25800

中文名称: 胰岛素、转铁蛋白和硒溶液

产品简介: Insulin-Transferrin-Selenium (ITS). ITS is a mixture of bovine insulin, human transferrin, and sodium selenite.

It is a general cell supplement designed for use in non-complex media (e.g. MEM, RPMI-1640) and complex media (e.g. Ham's F-12, DMEM/F-12, MEM) with sodium pyruvate.

产品浓度: 100X

产品成分:

Insulin from bovine pancreas:	1 mg/ml
Human transferrin (substantially iron free):	0.55 mg/ml
Sodium selenite:	0.67 ug/ml

产品类型: Ready-to-use, sterile filtered solution

包装规格: 10 mL, sufficient to prepare 1 liter of medium.

储存条件: -20°C

FOR RESEARCH USE ONLY, NOT FOR USE IN DIAGNOSTIC AND THERAPEUTIC PROCEDURES
